

Cost Effective · Powerful · User Friendly

Introducing

# SigmaXL V5.1

## For Statistical and Graphical Analysis

- As an Excel add-in, this tool is easy to use and ideal for training.
- Priced at \$199, SigmaXL is a fraction of the cost of any major statistical product, yet it has all the functionality most professionals need.
- **SigmaXL V5.1** is compatible with Excel 2007 and can accommodate more than 1 million rows of data. Included are additional Six Sigma DMAIC templates and a Control Chart Wizard to simplify the selection of SPC charts.
